

PNDF-01194 **** AFTER FINAL: EXPEDITED ACTION **** 00760070aa
Amendment dated 06/09/2004 Reply to office action mailed 03/31/2004

Amendments to the Specification:

Please replace the paragraph beginning at page 11, line 11, with the following rewritten paragraph:

In the communication device of the present embodiment, first, a user makes key operations in a key-input section 1, whereby ~~it is started to set~~ the setting of an operational procedure is begun. When ~~key-data input by a user is informed upon a device control section 2 is informed~~ from the key-input section 1 that key-data has been input by the user, the device control section 2 ~~by which receives~~ receives the information ~~was received~~ decides whether the key-data is a request for enrollment of key-input information as shown in FIG. 2 (S1).
